# Birdtex® Light

## Product Profile

Drape-over Diamond Mesh Bird Netting

Birdtex® Light is a lightweight, diamond profile HDPE netting engineered for seasonal bird protection across large outdoor cropping areas. Designed to be draped directly over crops, its knitted construction makes it easy to handle, install and remove, delivering an effective physical barrier to help prevent bird damage across expansive areas while remaining a practical, cost-effective option for orchards and vineyards.

### Features and Benefits

- **Seasonal Bird Protection:** Provides an effective drape over barrier to help protect fruit and vegetable crops from bird attack during peak pressure periods.
- **Lightweight Install & Remove:** Lightweight design supports straightforward manual handling, ideal where nets need to go on and off seasonally.
- **Easy to Handle:** Coloured indicators half or quarter points across the width help ensure the netting is positioned evenly over the crop. Reinforced edges improve ease of handling during deployment over orchards and vineyards.
- **Durable, UV Stabilised HDPE:** Strong HDPE construction won't rot or absorb moisture, and is UV stabilised for reliable outdoor performance.

## Technical Specifications

Fabric Properties		
	Metric - AS 2001.2.13 (mass per unit)	
Nominal Fabric Mass	24 gsm ± 5	
Yarn	UV Stabilised HDPE	
Pattern	16mm Diamond lock-stitch	
Temperature Range	-30°C to +75°C	
Packaging		
Bale Material	Woven Polypropylene	Woven Polypropylene
Bale Size	1.75 m x 1.02 m x 1.02 m	5 ft 9 in x 3 ft 4 in x 3 ft 4 in

## Product Data

Product And Package Detail					
Colour	Code	Aperture Size	Nom. Width	Length	Units per Bale
White	2000273	16 mm	5 m	300 m	8
	2000274		6.5 m		6
	2000275		10 m		4
	2000276		13 m		3
	2000277		15 m		3
	2000278		18 m		2
	2000279		20 m		2

\*Available in Made to order only. Contact your GALE Pacific representative for Lead time information. Minimum order quantity applies. Test results available upon request.

## Care & Maintenance

Do not use near open flames. Avoid contact with chemicals, pesticides or organic solvents which contain sulphur, halogens, or highly acidic substances, as these will reduce service life and void the warranty.

## Usage Instructions

Designed for drape over protection only.

Birdtex® Light may be pegged down during settling in windy areas – however movement of the netting may further deter birds.
